+1 (505) 314-4519

Albuquerque, New Mexico

Full stack developer with 19 years of experience in PHP and Laravel, plus hands-on work in Node, Express, React, and Vue. Focused on writing clean, maintainable code and always picking up something new along the way.

EXPERIENCE

Builtnoble, LLC — *Full Stack Developer*

November 2024 - Present

Returned to freelance work after Shopgenie. Builds private Composer and Node/NPM packages in addition to paid client work, with occasional contributions to open source projects, and ongoing work building out AI-assisted developer tooling, from custom coding agent skills to deeper codebase integrations.

Shopgenie — *Full Stack Engineer*

September 2024 - October 2024

Designed and maintained a PHP/Laravel API supporting a React-based frontend CRM, and led the initiative to modularize the API architecture into reusable PHP packages.

SuperMoney — *Software Engineer*

October 2022 - June 2024

Maintained and enhanced a legacy PHP/Vue application while building out a modern Node.js API and React frontend, working closely with the product team on new UI/UX designs.

boomtime — *Frontend Developer / Lead Developer*

December 2021 - October 2022

Developed and maintained a monolithic SaaS application for the digital marketing industry, expanding the Laravel API and building the Vue.js frontend.

Builtnoble, LLC — *Full Stack Developer*

December 2007 - December 2021

Built and maintained websites for regional clients as a freelance full stack developer, covering server provisioning, responsive design, custom CMS/plugin development, and technical consulting.
